Mr. HASTLER will shortly announce the receipt of an extensive variety of New Goods adapted for Spring wear.

MOST IMPORTANT DISCOVERY OF THE DAY.

To Sheep-farmers and the Public in general.

F. C. Calvert's Phenyline & Terebanes Sheep Salve

The great reputation these specifics have enjoyed in England on account of their extraordinary success in all cases where they have been applied, has induced the proprietor to introduce them in this market on account of the immense sheep farming interest of the country. To enable sheep-farmers to obviate in future the enormous losses they sustain yearly, not only in the deterioration of the Sheep, but also, as frequently happens, the loss of the animal itself. It is a powerful antiseptic, and he only asks a fair trial, feeling confident of the result. The following is a list of some of the uses to which these antiseptics may be applied—

In Sheep—To cure maggots, footrot, scab, lice, tick.

In Horses—Canker in the feet, grease, quittor, all cangrenous wounds or ulcers, cracked heels, mange &c.

Cows; distemper, and all diseases of the hoofs.

For wounds or bruises resulting from accident and for all general Veterinary purposes these remedies are sure. Phenyline is found to be remarkably successful in the Hospitals in England for curing Cancer. Terebene is also used for preserving hides, skins and bones from all vermin and insects, the parcels already cured with it in this city and Australia have merited the approval of purchasers in England who report them to be perfectly sound and sweet. The leather made from the hides is also declared to be superior in every respect.

SATURDAY, AUGUST 15 1863.

BUENOS AYRES GREAT SOUTHERN RAILWAY.

We translate and publish the following decree sanctioning the contract entered into by the company with Messrs. Peto and Betts, as interesting to many of our subscribers.

Provincial Ministry of Hacienda, Office, B. Ayres, Aug. 12, 1863.

Having seen the report of the committee named to examine the contract concluded between the Southern Railway Company and Sörs. Peto, Betts, and Co. of London, and it appearing by said report that £651,600, the sum there affixed as the cost of the construction of the road, lands, &c., should be reduced, and the attorneys of the company having proposed to the Government to establish a certain fixed price as the total cost of the road and accept the £9000 per mile which the government offered to recognise as the cost, that is to say, for the construction and materials according to the contract including the price of lands and lawful commissions, and interest at 6 p. % granted by law upon said capital expended upon said works are being constructed, and the Government being convinced that all these sums amounted to £[illegible]0,000, or £10,000 per mile, decrees as follows:—

First—The government recognises as the total and definite cost of the railroad from this city to Chascomus, as hereinafter specified, £7000,000.

Second—That in case it shall become necessary for the government to pay the guarantee of 7 p. % per annum upon the capital recognised, The Government shall be repaid the interest upon £25,000 by Messrs. Thomas Armstrong, John Fair, and George Drabble, and other merchants of this city, as expressed in the document signed by them for that purpose; and the attorneys of the company having accepted these conditions, Let the obligation or bond of said merchants be attached to the petition and report in question. To give full effect to all such documents, let them be sent to the register, from whence the parties interested shall receive the certificates which they may require.

Signed SAAVEDRA,
LUIS L. DOMINGUEZ.

The parties who have guaranteed to government the interest on £25,000 are—

Don Thomas Armstrong
[illegible]
[illegible]
[illegible]
[illegible] Jarratt
[illegible] Green
[illegible] Lezama
[illegible] P Lezica
Don Don P Lacroze [illegible]

[illegible] TABLE.

Not two, but three! Liverpool is going River Plate mad: a third line of steam packets has been started, which, unlike the other two, comes direct to Montevideo and Buenos Ayres. In this manner we shall have weekly communication with Europe. The River Plate Co. (La Plata) on the 1st of every month; the S. Americano Navigation Co. (pacific) on the 7th; the Liverpool and Brazilian (Kepler) on the [illegible]. Hence we may expect arrivals [illegible] 10th, 25th, 25th & 28th of every month; but ultimately the Liverpool lines will sink into one.

Dr. Gibbing's reply to Dr. Keen on the 'Nacional,' in another column, fully bears out our former statement, and is a gentlemanly reproach to the mis-guided Anglo-Porteño, while conveying a forcible evidence of our colleague's ambiguity. We believe this closes the disagreeable question provoked by his rashness.

The annual meeting of the members of the British Library will take place on Thursday next, when a new committee will be named, and the report read for the past year. The catalogue, so long expected, will be on the table, being ready for sale at this office on Monday next. The delay is owing to the voluminous list, which, by 8 or 10 repetitions, swells 1,800 books into 16,000 names.

Captain Bruce declines laying his steamers alongside the Zarate mole, which is so short of deep water, that it would be as easy for him to anchor in the Plaza, close to the village church If the neighbors prolong the wharf, he has no objection to comply with their wishes. A family recently narrowly escaped drowning in a flat-bottomed boat, landing from the steamer, and people prefer travelling by land, under these circumstances.

Rain has fallen copiously in the North, as appears by letters from Fortin de Areco; much heavier than we have had in town. The camps thereabout are in excellent order, and we hear more cheering accounts from the South, than of the past month.

Sig. Pietro de Antoni (Basso) will give his benefit at Colon, in Lucia de Lammermoor, on Wednesday evening. Mdme. Mollo will sing 'Il Bacio' pleasing to the public and profitable to Sig. Antoni.

The London Provisional Committee of the Montevideo, Union, Florida, & Durazno projected railway Co. has sent general powers of Attorney to D. Senen Rodriguez of this city, for concluding the concession with the Oriental Government. The committee is made up of influential London merchants, the projected line will be 160 miles long, and the estimated cost about £10,000. Mr. Peter Beare has been named resident engineer, and we understand the surveys will soon commence.

Mr. Wheelwright's arrival in London on July 2nd is mentioned in the 'Times' and other English papers. We have received some journals from him, as a sign that he is in good health and spirits. Messrs. Lumb and Simpson are also in the great metropolis, probably uniting business with pleasure in revisiting their native country after so many years' absence.

The first supply of River Plate Handbooks was all but exhausted before Mr Wheelwright arrived with 50 copies more. We hear nothing of the River Plate Journal which was to appear in London, July 1st. This packet is the first for 12 months which has not brought us orders for new subscribers or advertisers in England.

The Cotton supply Reporter of July 1st. mentions our letters on cotton prospects here, and passes us a high eulogium; in the report of the Salado expedition by Dr. Hutchinson, who styles us "the most energetic workers in the cause." This report is so interesting that we will publish it, hereafter in full.

A malicious report has been circulated that Don Hector Varela is in prison, at Paris, for forgery. We have positive proof that he was perfectly innocent, and merely cited before the Criminal Judge as a witness in the process against the criminal. Our friend has but one fault, vanity, and he has been already sufficiently humiliated; but no one will deny that he is the most gentlemanly, talented, and upright member of his family.

Southern property holders are already speculating on the rise in value consequent on the commencement of the Chascomus Railway. A well-known barraca, on the banks of Riachuelo, is offered for private sale, and building plots for quintas in the Lomas de Zamorra, are set up at enormous prices by the owners, who expect a new El Dorado

Some of our colleagues played us a practical joke yesterday, sending us every five minutes a pair of stalwart 'peons' to turn our Hoe-press. It is gratifying to see our friends so solicitous for our comfort

The National Government is about to pass a decree, enforcing the acceptance of foreign coin as a legal tender. This will be a great boon, *mirabile dictu*—great squabbles arose on the subject among the very parties who had a petition, to this effect. A discount of 1 per cent, or $4 per doubloon, was equally unjust and inconvenient. Yesterday, we sent a sovereign to the British Consulate for 20 stamps, which was refused, and $140 exacted, although exchange rules at $120.

LATEST FROM EUROPE.

The news brought by the Africa in the evening of the 25th June. It is pretty clear from it that if Lee ever intended to attack Washington he went from Centreville he has abandoned that project. There is little of positive information as to his movements, but the rumours current in New York pointed to an intention on his part to attack Baltimore and Philadelphia. Seeing that such a course would leave his rear a good deal at the mercy of Hooker, it is hardly likely he will take it. He seems, however, to have crossed in force into Maryland, and a strong body of his troops were reported to have re-occupied Chambersburg, in Pennsylvania, and to be advancing towards Harrisburg. In Virginia General Pleasanton had engaged and defeated the Confederates under Gen. Stuart. It is stated that the militia of New Jersey have been withdrawn by the Governor from Pennsylvania on the ground that the people of Pennsylvania abused them as 'Copperheads.' General Hooker had attended a council of war at Washington. His army was strongly posted along the Potomac up to Harper's Ferry.

From Vicksburg the latest news is that on the 21st a battle was raging between the Confederate cavalry and the Federals at Black River Bridge. The report came from Southern sources, as they are not as a rule remarkably accurate, it may be surmised that there is not much truth in it. Johnston was known to have been engaged in fortifying the east bank of the Big Black River. It was announced that on the 20th the Federals would begin to throw hot shot into the fortress. No complaint appears to be made by the garrison, of shortness of provisions.

Southern reports stated that at Port Hudson the Federal steamer Essex had been captured, and that on the 12th June General Banks was attacked by the garrison and defeated. Both these reports are authentically denied. On the 14th Banks established batteries within 400 yards of the fort. The Confederates refusing to surrender he assaulted the place, and gained a position within a short distance of the works. He was confident of success.

The Confederate iron-clad Atlanta, formerly called the Fingal, has been captured by the Federals at Savannah. She came out of the harbour and was attacked by two Federal Monitors. She surrendered after a fight of thirty minutes. Several of the blockade runners have been fired into and sunk at Charleston. It was reported that the Federal cruisers had resolved to treat all of them in that way instead of endeavouring to capture them. The Confederate privateers continue to do havoc among the Federal merchant vessels. At Havanna it was rumoured that on the third an engagement took place off Santa Cruz between the Alabama and the Vanderbilt.

The *Moniteur* has an explanation with regard to the interview between the Emperor and Messrs Roebuck and Lindsay. The explanation sadly diminishes the importance of the affair, The Emperor, it is stated by his official journal, merely said in reply to his visitors that although he did not feel disposed to make a new offer of mediation without some probability of success, yet he would at some future time—we do not learn when—instruct Baron Gros to 'sound' the English Cabinet, and to intimate that 'if' England thought recognition would stop the American war, and 'if' England would take the step first, France 'would be disposed to follow her. This is all—a marvellous falling off from Mr. Roebuck's pompous announcement. Further, the Emperor declares that he never attempted to influence the British Parliament through the medium of two of its members, thus disposing in rather summary fashion of Mr. Roebuck's grand 'message' which he was 'authorised to bear' to the House of Commons.

The Polish news continues to be made up of a variety of accounts of engagements, the success of which appears to be ascribed according to the quarter from which the news arrives. Rochebrune, the French leader of volunteers, is again upon the scene, coming, however, from the east, and not from the west. A Prussian journal publishes a statement received from Warsaw to the effect that the National Government has sent a declaration to the Cabinets of Paris and London, announcing that it will agree to a Conference and an armistice, on condition that a representative on its behalf is allowed to take part in the deliberations. A similar statement was made some days back, on what professed to be official authority, in the columns of a London contemporary.

Some disturbances have occurred among the troops in the garrison of Athens. According to some accounts they amounted to a positive mutiny of part of the army. There was likewise an attack upon the Bank of Athens, during which several lives were lost Some accounts state that after considerable difficulty order was fully restored, and that Athens was tranquil; but we fear this is by no means certain

Accounts from the city of Mexico to the 24th ult, telegraphed from San Francisco, state that General Comonfort had resigned the command of the Mexican forces, in consequence of the strong feeling against him for not relieving the garrison at Puebla and leaving the city, and that President Juarez has personally assumed the command. General Forey had put 300 Mexican prisoners at work on the Vera Cruz Railway, and 200 were employed in destroying the fortifications erected by the Mexicans for the defence of Puebla

Letters received in Marseilles and Paris from Madagascar, deny that the treaties with Europe are suspended, or that the Queen was a sharer in the guilt of the King's murder. She has, however, accepted the conditions made by the revolutionary party thus far.

AVELING & PORTER'S PATENT TRACTION ENGINE.

(From the 'Times,' Feb. 23, 1863.)

TRIAL OF A NEW TRACTION ENGINE.—On Saturday afternoon a number of eminent engineers and scientific men assembled at Rochester for the purpose of witnessing some experiments made with a new traction engine, manufactured by the firm of Messrs. Aveling and Porter, of Rochester, the patentees. The engine selected for the trial was one of several which are now being manufactured by the firm of Messrs. Aveling and Porter, of Rochester, the patentees. The engine selected for the trial was one of several which are now being manufactured for the Youdanamutana Copper and Mining Company, Australia. Shortly after one o'clock the engine started from the factory at Strood with four heavy waggons attached, each laden with baulks of timber, the total weight of each waggon, with its freight, being close upon five tons. With this load the engine traversed the narrow streets of Strood, turning the sharp angle at the turnpike and ascending a long incline of about 1 in 12, for upwards of a mile, at a speed of five miles an hour. The engine was then turned towards a hill with a rise of 1 in 8—the steepest of the kind in the neighbourhood—and notwithstanding the exceedingly soft sloppy state of the road, ascended to the top with the train of waggons at the rate of about three miles an hour. After travelling some distance at speeds varying from three to six miles an hour the engine and train ascended the long inclines, and again reached the turnpike road, where two more heavily laden waggons were attached, swelling the weight, with the engine, to upwards of 40 tons. Once more the engine was started, and without the least apparent difficulty, it dragged its load over every variety of ground, and through the streets, arriving at the factory at about five o'clock, after an absence of upwards of three hours. The engine experimented upon was one of nominally 10-horse power, and was the first traction engine which ever ascended a gradient of the steepness of that passed over on Saturday with such a heavy weight. It is the intention of the company to send out 20 similar engines to Australia for the purpose of transporting the copper from their mines to the port, a distance of 120 miles, over an unbeaten tract of land. The cost of the carriage is now £10 per ton, but by the use of these engines it will be reduced to £2. The trials on Saturday were considered very satisfactory by those present, several of the most eminent engineers pronouncing the new traction engine in every respect the best yet constructed.

ANOTHER MURDER.

Ranchos, August 8th, 1863.

A gallego, named Pedro Biscacha, has been murdered. A few days ago the poor fellow had his throat cut in two places, and two stabs. It appears that two men called at his house and asked him for a light. He went to bring one. In the meantime one of them got off his horse, and as he gave the fire to the other one, came and stabbed him. It was two days after the murder was committed before the authorities endeavoured to apprehend the murderers; as yet they have not been able to do so. What is the use of tenientes or alcaldes if a man can rob or kill with the certainty that no one will endeavour to take him prisoner till two or three days after he has committed the crime? I should be very much obliged if you would call attention to this gross neglect.

MARKET REPORT OF RIVER PLATE PRODUCE.

New York, June 19, 1863.

There has been more life in trade the past month, and Hides, Wool, &c., are beginning to sell more freely. Gold has fluctuated some, with a constant downward tendency, as the impression was quite general that our armies would be victorious, and hasten the bringing of the rebellion to a close. General Grant is besieging Vicksburg, and as the rebels are not likely to be reinforced the fall of the place is only a question of time. General Banks holds Port Hudson in the same position, and with the capture of these places the Government will again have the control of the Mississippi River, and trade can be resumed without interruption.

The rebel army of General Lee has moved from Fredericksburg, and are invading Maryland and Pennsylvania. General Hooker is following them up, and a battle must inevitably take place. We continue to learn of numerous depredations by the "pirates" on our commerce, and insurance against risk of capture has nearly doubled.

Government Securities 5-20, ye Bonds continue to be subscribed for very liberally by the community.

Unwashed Mestiza wool.—But little has been added to our stock by the recent arrivals, and the bulk of the clip will soon be here. There has been a little more enquiry, and sales amounting to 400 bales on 'private terms,' supposed to be 28 to 30 cts. per lb. cash. An increased demand is looked for next month.

Unwashed common Entre Rios, Rosario, San Nicolas, and Buenos Ayres Wools.—A further addition has been made to our stock, but no sales reported. There is no particular enquiry for this description of wool, and the quantity on hand is not large, and can easily be placed when a demand comes.

Washed Cordoba, Santiago, San Luis and Mendoza Wools.—300 bales have been imported direct, and from England, all of which is still unsold. Sales from second hands about 200 bales at 40 to 42½ cts. per lb. nett cash. The market is very quiet,

TOBACCO REPORT.

London, July 9th, 1863.

American advices continue to represent the new Western Tobacco to be with little exception, of the most inferior quality for many seasons, almost devoid of rich heavy leaf, wanting in body, substance, ragged, some frosted, much with green and unripe leaves, and not so well handled as in former years; that in the state of Tennessee alone, 10,000 to 13,000 labourers had been taken from the cultivation of Tobacco, while much the same condition of affairs exists in Kentucky and Missouri, and that even with a favorable season the crop of the present year must fall short of last in weight and hogsheads.

There is some doing in Paraguay, the last of the season's growth having arrived at market; we have received samples of 700 bales of this growth, of the finest quality, color, and in the dryest condition.

COTTON SUPPLY ASSOCIATION

Offices, No. 1 Newall's Buildings, Manchester, July 8, 1863.

Dear Sirs—Your two favours of the 27th April & 25th May have been duly received, and have had the best attention of our committee.

The 400lb of cotton mentioned in the first of the above letters has not yet arrived, The committee hope that this lot is the same as that mentioned in your last communication, as the price is so high that a considerable loss will be suffered upon it. Some discussion occurred at their meeting yesterday on the subject of your purchase of seed cotton, and some disapproval was expressed as to the recognition of such transactions, as our constitution prohibits them, the principal functions of this association being the dissemination of the best information the executive are able to collect for the instruction of intending cotton-growers, and to supply them with the best description of seed and cleaning machinery.

The association cannot on its own account enter into any trading operations, but should you or your friends be desirous of consigning any parcel of cotton, the committee will dispose of it in the best market, rendering any service they are able gratuitously.

The committee desire me to point out to you that the price you have paid for the seed cotton under notice (10d. per lb.) is, unless of a very superior description, doubtless much above its commercial value, as it will cost when cleaned nearly 3s. 6d. per lb, estimating 1lb of clean cotton out of 4lb seed cotton, being nearly double the price of American and Egyptian cottons. They fear that your having paid what appears to them to be an exorbitant price may actually do harm, by raising a false estimate of the probable value of future crops. They regret that so much cotton seed should be sent away from Buenos Ayres, especially at a time when the association is using its best efforts to furnish you with adequate supplies of the same article. Considering the value of good seed, its worth to your neighbours would have amply paid the expense of hand-picking it, if no gin could be made available.

The committee are sorry to hear that you have not been able to work the gin you have got. I enclose the maker's directions for fixing and adjusting the machines, and hope they will enable you to arrange its satisfactory action. Should you have no means of turning the machine by steam, water, or cattle-power, a large wheel about 6 feet in diameter may be used, and by means of a strap from that wheel to the pulley of the gin about 120 revolutions of the roller may be easily obtained, that number being considered requisite.

We have received a debit note amounting to £1 13s. 2d. from the shippers of the seed, per Magdalena, for which amount be good enough to give the association credit.

The committee were interested with your remarks on the supply of labour and the prospects of Buenos Ayres as a cotton producing country

I send you by this mail a parcel of our tracts in Spanish, and regret that our stock will not allow us to spare more at present.

I am, dear sirs,
Yours truly,
ISAAC WATTS, Secretary.
Messrs. M. G. and E. T. Mullhall,
Buenos Ayres.

PRICES OF PRODUCE.

Liverpool, July 7th, 1863.

Since the issue of our last, the arrivals from the River Plate have been the Amerigo, Tre Sorelli, Witch of the Wave, Envoy, and John Ritson, from Buenos Ayres: the Regatta, Florie, Orkney Lass, Jane, Western Star, Zelia, Lady Douglas, and Blackburn, from Monte Video: the Tutto per il Meglio, Rowena, and Jolly, from Fray Bentos; the Mosquito, from Concepcion: and the Teresa and Onward, from the Uruguay, bringing 105,475 salted ox and cow, and 4259 salted horse hides. From Rio Grande the arrivals have been the Fides, La Meuse, Masonic, and Anthon Ostoff, bringing 19,806 salted ox and cow, and 4,894 salted horse hides. The Constantia and Seringapatam, from Buenos Ayres: the Indiferente, Orlebar, Victor Emanuele, and Haabet, from Monte Video: and the Jane Campbell and Vesta, from Rio Grande, have likewise been reported with cargoes of wool, tallow, calcined bones, &c. From other quarters the principal imports of hides include 5344 dry West Coast, 11,316 dry salted Brazil, 8105 salted North American, and 13,500 East India kips and buffalo hides

Though the sales during the past month of salted River Plate and Rio Grande hides show, in the aggregate, a fair amount of business, the market has continued heavy and unsettled and prices are again lower, and, with large arrivals and an increasing stock, the trade have purchased with evident reluctance. By the concession of 1⁄8 per lb on heavy, and 1⁄4 per lb on light ox, several parcels of Uruguays and Montevideos were placed in June, but for the last few days there has seemed no disposition to operate further at the same prices. Buenos Ayres have met with little inquiry. The sales of Rio Grande include the cargo, per La Meuse, sold previous to arrival.

The present stock consists of 115,692 hides

Bones and bone ash—Import, 900 tons bones and 698 tons bone ash and calcined bones. Bones have continued in good demand, and considering the season of the year, have realised very fair prices. Bone ash, on the spot, is dull and heavy of sale. There are inquiries for floating cargoes for outports, and the present quotations may be considered as 5l 2s 6d to 5l 5s for Rio Grande and 4l 17s 6d to 5l for River Plate, on a basis of 70 per cent of phosphates. Sales, 800 tons bones. River Plate—Shanks, 6l 2s 6d to 6l 10s: out, 6l 10s: legs, 5l 10s to 6l; common, 5l 7s 6d to 5l 12s 6d: piths, 4l 10s to 4l 17s 6d: hoofs, 6l 10s per ton. West Coast—Common mixed, at 5l 12s 6d per ton. 300 tons River Plate bone ash, ex ship, at 4l 10s per ton on 70 per cent phosphates

South American tallow—Import, equal to 4330 pipes. A fair amount of business has been concluded on the spot, chiefly ex ship, at a decline of about 6d to 9d per cwt. Sales are estimated at about 3700 pipes, a considerable portion of which was sold previous to arrival. Fair to good Saladero, 41s 6d to 43s 3d; yellow and inferior, at 40s 6d to 41s 6d per cwt. About 50 pipes mare's grease has been realised at 35s 6d to 38s 9d per cwt Stock, 6100 pipes.

THE "NACIONAL" AND DR GIBBINGS.

To the Editor of the Standard.

Estancia de los Ombues Ranchos, August 10th, 1863.

"Parturiunt montes, nascitur ridiculus mus."—HOR.

Dear Sir—Your statement of the case alluded to in the Nacional of the 1st inst is verbatim as I related it to you. Although I have not the honor of Dr. Keen's personal acquaintance I trust that I enjoy the friendship of some members of his family. The article in question I translated literally. I admitted no Homeric license, and as a British subject and a foreigner I felt aggrieved. Feeling as I do respect and esteem for every member of a family who have been such benefactors to Buenos Ayres as Dr. Keen's, I was pleased to hear from a mutual friend Dr. Keen's vexation at being considered the author of the said article, and I considered it justice that you should make some amend, as far as he was concerned, for the very appropriate rejoinder which appeared in the Standard, to the remarks of the Nacional, so ungenerous to foreigners of all denominations. Perhaps on my part it was incautious, but as in Sterne's Tristram

the end desired tenvlfes the dee Should Doctor Keen desire it, he shal have the satisfaction, in co fidence, knowing our mutual friend's name, an any other satisfaction he may requir that one gentleman can give to another I will only allude to one passage in the paragraph of the 'Nacional' of the 5th inst, when he asks if I remember our loved country, and I tell him that my sons have learned from our immortal bard to feel as I do

"Ireland as she ought to be, great glorious and free,
First flower of the earth and first gem of the sea."

Faithfully yours,
RICHARD GIBBINGS.

ON 'CHANGE,

August 14.

Ounces opened at 11½ at 429; they ran down to 427 1|2 immediately, and about 1700 sold at that rate. They became a little firmer towards two o'clock, and closed firm at 428. Cash sales, 14,440.

Jan. 31	500 }	
Dec. 31	500	416

Saturday being a holiday, to-day was pay day on the Bolsa. The sales for cash were enormous, and on time very heavy. Ounces were very weak to-day, and shewed as great a tendency to decline still further as a few weeks past they did to go up. It is said that very little speculation is going on in gold, but we cannot reconcile this statement with the figures on the black board. Speculation, and a very heavy speculation must be going on, to necessitate the purchase of 14,000 ounces in the middle of the month. On 'Change to day, it was stated that by a decree of the Government, to be signed this day, foreign coin would be made a legal tender, and that the Government had set the good example themselves, by receiving sovereigns in the Custom House

Money seemed rather abundant this evening, and collections about town were not bad

It is said that 50,000 sovereigns came by the packet to order. We have seen nothing to justify the report on the manifest, unless they remained in Montevideo

We understand, that besides the parties already named, there are several others who have come forward to guarantee the interest on the £25,000 to the Government in the Great Southern R R contract. Mr Martin Alzaga and others have already signed the document. We are pleased to see this Every property holder in the south should do the same.

PRODUCE SALES.

5500 quintals jerked beef	15 1|2
80 dry hides	105
50 do	95
160 doz sheepskins epidemia	110
85 do mixed	80
80 bales Cordova wool	35
1000 lb feathers, B.O.	10 rls

Produce sales were very limited today, and salted hides are very weak, owing to the news from Europe. Wool is firm, but the stock on hand is so scanty that except as regards the coming clip the advices have slight interest.

We regret to notice the sudden demise of our colleague "El Commercio" We are pleased to say that this has been caused less by the want of support than the impossibility of the talented editor to attend to it, owing to his multifarious occupations

RIVER PLATE MAIL.

Public sales of River Plate wool were held here on the 27th inst, consisting of 2057 bales, viz.

2405 Bales Entre Rios, B. Ayres, and Banda Oriental, of which 1251 bales were sold, 84 per cent being washed wool, and all of fine qualities including some celebrated marks of clean Entre Rios wool, viz, J J, D O, J P, J S, J T, &c. The prices were as follows—

Fine wool from the Buenos Ayres district, having a good deal of burr, could only be disposed of at lower rates, and very few were offered. Some parcels have been sold since the sales at similar prices to those by auction and also a parcel of fine greasy Entre Rios, in good condition, at 9 1|2d round for all qualities except the refuse.

The clean washed and Entre Rios of third and fourth qualities realized better than expected, the demand being mostly for low class clothing wools, and the average price was thereby somewhat improved.

SATURDAY, AUGUST 15 1863.

BUENOS AYRES GREAT SOUTHERN RAILWAY.

We translate and publish the following decree sanctioning the contract entered into by the company with Messrs. Peto and Betts, as interesting to many of our subscribers.

Provincial Ministry of Hacienda,
Office, B. Ayres, Aug. 12, 1863.

Having seen the report of the committee named to examine the contract concluded between the Southern Railway Company and Sres. Peto, Betts, and Co., of London, and it appearing by said report that £651,500, the sum there fixed as the cost of the construction of the road, lands, &c., should be reduced, and the attorneys of the company having proposed to the Government to establish a certain fixed price as the total cost of the road, and accept the £9000 per mile which the government offered to recognise as the cost, that is to say, for the construction and materials according to the contract including the price of lands and lawful commissions, and interest at 6 p. % granted by law upon said capital expended upon said works are being constructed, and the Government being convinced that all these sums amounted to £760,000, or £10,000 per mile, decrees as follows:—

First—The government recognises as the total and definite cost of the railroad from this city to Chascomus, as hereinafter specified, £7000,000.

§. Second—That in case it shall become necessary for the government to pay the guarantee of 7 p. % per annum upon the capital recognised. The Government shall be repaid the interest upon £25,000 by Messrs. Thomas Armstrong, John Fair, and George Drabble, and other merchants of this city, as expressed in the document signed by them for that purpose; and the attorneys of the company having accepted these conditions. Let the obligation or bond of said merchants be attached to the petition and report in question. To give full effect to all such documents, let them be sent to the register, from whence the parties interested shall receive the certificates which they may require.

Signed SAAVEDRA,
LUIS L. DOMINGUEZ.

The parties who have guaranteed to government the interest on £25,000 are—

Mr. Thomas Armstrong
Mr J Fair
Mr G Drabble
Mr E Lumb
Mr Henry Harratt
Mr H A Green
Sor Don J G Lezama
Sor Don A P Lezica
Sor Don P Elortondo

EDITOR'S TABLE.

Not two, but three! Liverpool is going River Plate mad: a third line of steam packets has been started, which, unlike the other two, comes direct to Montevideo and Buenos Ayres. In this manner we shall have weekly communication with Europe. The River Plate Co. (La Plata) on the 1st of every month the S. American Navigation Co. [Sicilia] on the 7th the Liverpool and Brazilian [Kepler] on the 20th. Hence we may expect arrivals on the 2nd, 15th, 20th, 25th & 28th of each month; but ultimately the Liverpool lines will sink into one.

Dr. Gibbing's reply to Dr. Keen on the 'Nacional,' in another column, fully bears out our former statement, and is a gentlemanly reproach to the mis-guided Angli-Porteño, while conveying a forcible evidence of our colleague's ambiguity. We believe this closes the disagreeable question provoked by his rashness.

The annual meeting of the members of the British Library will take place on Thursday next, when a new committee will be named, and the report read for the past year. The catalogues, so long expected, will be on the table, being ready for sale at this office on Monday next. The delay is owing to the voluminous list, which, by 8 or 10 repetitions, swells 1,800 books into 16,000 names.

Captain Bruce declines laying his steamers alongside the Zarate mole, which is so short of deep water, that it would be as easy for him to anchor in the Plaza, close to the village church. If the neighbors prolong the wharf, he has no objection to comply with their wishes. A family recently narrowly escaped drowning in a flat-bottomed boat, landing from the steamer, and people prefer travelling by land, under these circumstances.

Rain has fallen copiously in the North, as appears by letters from Fortin de Areco; much heavier than we have had in town. The camps thereabout are in excellent order, and we hear more cheering accounts from the South, than of the past month.

Sig. Pietro de Antoni (Basso) will give his benefit at Colon, in Lucia de Lammermoor, on Wednesday evening. Mdme. Mollo will sing 'Il Bacio' pleasing to the public and profitable to Sig. Antoni.

The London Provisional Committee of the Montevideo, Union, Florida, & Durazno projected railway Co. has sent general powers of Attorney to D. Senen Rodriguez of this city, for concluding the concession with the Oriental Government. The committee is made up of influential London merchants, the projected line will be 180 miles long, and the estimated cost about £10,000. Mr. Peter Beare has been named resident engineer, and we understand the surveys will soon commence.

Mr. Wheelwright's arrival in London on July 2nd is mentioned in the 'Times' and other English papers. We have received some journals from him, as a sign that he is in good health and spirits. Messrs. Lumb and Simpson are also in the great metropolis, probably uniting business with pleasure in revisiting their native country after so many years' absence.

The first supply of River Plate Handbooks was all but exhausted before Mr Wheelwright arrived with 50 copies more. We hear nothing of the River Plate Journal which was to appear in London, July 1st. This packet is the first for 12 months which has not brought us orders for new subscribers or advertisers in England.

The Cotton supply Reporter of July 1st. mentions our letters on cotton prospects here, and passes us a high eulogium, in the report of the Salado expedition by Dr. Hutchinson, who styles us "the most energetic workers in the cause." This report is so interesting that we will publish it, hereafter in full.

A malicious report has been circulated that Don Hector Varela is in prison, at Paris, for forgery. We have positive proof that he was perfectly innocent, and merely cited before the Criminal Judge as a witness in the process against the criminal. Our friend has but one fault, vanity, and he has been already sufficiently humiliated; but no one will deny that he is the most gentlemanly, talented, and upright member of his family.

Southern property holders are already speculating on the rise in value consequent on the commencement of the Chascomus Railway. A well-known barraca, on the banks of Riachuelo, is offered for private sale, and building plots for quintas in the Lomas de Zamorra, are set up at enormous prices by the owners, who expect a new El Dorado

Some of our colleagues played us a practical joke yesterday, sending us every five minutes a pair of stalwart 'peons' to turn our Hoe-press. It is gratifying to see our friends so solicitous for our comfort

The National Government is about to pass a decree, enforcing the acceptance of foreign coin as a legal tender. This will be a great boon, as—'mirabile dictu'—great squabbles arose on the subject among the very parties who had a petition, to this effect. A discount of 1 per cent, or $4 per doubloon, was equally unjust and inconvenient. Yesterday, we sent a sovereign to the British Consulate for 20 stamps, which was refused, and $140 exacted, although exchange rules at $120.

LATEST FROM EUROPE.

The news brought by the *Africa* is to the evening of the 25th June. It is pretty clear from it that if Lee ever intended to attack Washington in front from Centreville he has abandoned that project. There is little of positive information as to his movements, but the rumours current in New York pointed to an intention on his part to attack Baltimore and Philadelphia. Seeing that such a course would leave his rear a good deal at the mercy of Hooker, it is hardly likely he will take it. He seems, however, to have crossed in force into Maryland, and a strong body of his troops were reported to have re-occupied Chambersburg, in Pennsylvania, and to be advancing towards Harrisburg. In Virginia General Pleasanton had engaged and defeated the Confederates under Gen. Stuart. It is stated that the militia of New Jersey have been withdrawn by the Governor from Pennsylvania on the ground that the people of Pennsylvania abused them as 'Copperheads.' General Hooker had attended a council of war at Washington. His army was strongly posted along the Potomac up to Harper's Ferry.

From Vicksburg the latest news is that on the 21st a battle was raging between the Confederate cavalry and the Federals at Black River Bridge. The report came from Southern sources, as they are not as a rule remarkably accurate, it may be surmised that there is not much truth in it. Johnston was known to have been engaged in fortifying the east bank of the Big Black River. It was announced that on the 20th the Federals would begin to throw hot shot into the fortress. No complaint appears to be made by the garrison, of shortness of provisions.

Southern reports stated that at Port Hudson the Federal steamer Essex had been captured, and that on the 12th June General Banks was attacked by the garrison and defeated. Both these reports are authentically denied. On the 14th Banks established batteries within 400 yards of the fort. The Confederates refusing to surrender he assaulted the place, and gained a position within a short distance of the works. He was confident of success.

The Confederate iron-clad Atlanta, formerly called the Fingal, has been captured by the Federals at Savannah. She came out of the harbour and was attacked by two Federal Monitors. She surrendered after a fight of thirty minutes. Several of the blockade runners have been fired into and sunk at Charleston. It was reported that the Federal cruisers had resolved to treat all of them in that way instead of endeavouring to capture them. The Confederate privateers continue to do havoc among the Federal merchant vessels. At Havanna it was rumoured that on the third an engagement took place off Santa Cruz between the Alabama and the Vanderbilt.

The *Moniteur* has an explanation with regard to the interview between the Emperor and Messrs Roebuck and Lindsay. The explanation sadly diminishes the importance of the affair. The Emperor, it is stated by his official journal, merely said in reply to his visitors that although he did not feel disposed to make a new offer of mediation without some probability of success, yet he would at some future time—we do not learn when—instruct Baron Gros to 'sound' the English Cabinet, and to intimate that 'if' England thought recognition would stop the American war, and 'if' England would take the step first, France 'would be disposed to follow her. This is all—a marvellous falling off from Mr. Roebuck's pompous announcement. Further, the Emperor declares that he never attempted to influence the British Parliament through the medium of two of its members, thus disposing in rather summary fashion of Mr. Roebuck's grand 'message' which he was 'authorised to bear' to the House of Commons.

The Polish news continues to be made up of a variety of accounts of engagements, the success of which appears to be ascribed according to the quarter from which the news arrives. Rochebrune, the French leader of volunteers, is again upon the scene, coming, however, from the east, and not from the west. A Prussian journal publishes a statement received from Warsaw to the effect that the National Government has sent a declaration to the Cabinets of Paris and London, announcing that it will agree to a Conference and an armistice, on condition that a representative on its behalf is allowed to take part in the deliberations. A similar statement was made some days back, on what professed to be official authority, in the columns of a London contemporary

Some disturbances have occurred among the troops in the garrison of Athens. According to some accounts they amounted to a positive mutiny of part of the army. There was likewise an attack upon the Bank of Athens, during which several lives were lost Some accounts state that after considerable difficulty order was fully restored, and that Athens was tranquil: but we fear this is by no means certain.

Accounts from the city of Mexico to the 24th ult, telegraphed from San Francisco, state that General Comonfort had resigned the command of the Mexican forces, in consequence of the strong feeling against him for not relieving the garrison at Puebla and leaving the city, and that President Juarez has personally assumed the command. General Forey had put 300 Mexican prisoners at work on the Vera Cruz Railway, and 200 were employed in destroying the fortifications erected by the Mexicans for the defence of Puebla

Letters received in Marseilles and Paris from Madagascar, deny that the treaties with Europe are suspended, or that the Queen was a sharer in the guilt of the King's murder. She has, however, accepted the conditions made by the revolutionary party thus far.

AVELING & PORTER'S PATENT TRACTION ENGINE.

(From the 'Times,' Feb. 23, 1863.)

TRIAL OF A NEW TRACTION ENGINE.—On Saturday afternoon a number of eminent engineers and scientific men assembled at Rochester for the purpose of witnessing some experiments made with a new traction engine, manufactured by the firm of Messrs. Aveling and Porter, of Rochester, the patentees. The engine selected for the trial was one of several which are now being manufactured by the firm of Messrs. Aveling and Porter, of Rochester, the patentees. The engine selected for the trial was one of several which are now being manufactured for the Youdanamutana Copper and Mining Company, Australia. Shortly after one o'clock the engine started from the factory at Strood with four heavy waggons attached, each laden with baulks of timber, the total weight of each waggon, with its freight, being close upon five tons. With this load the engine traversed the narrow streets of Strood, turning the sharp angle at the turnpike and ascending a long incline of about 1 in 12, for upwards of a mile, at a speed of five miles an hour. The engine was then turned towards a hill with a rise of 1 in 8—the steepest of the kind in the neighbourhood—and notwithstanding the exceedingly soft sloppy state of the road, ascended to the top with the train of waggons at the rate of about three miles an hour. After travelling some distance at speeds varying from three to six miles an hour the engine and train ascended the long inclines, and again reached the turnpike road, where two more heavily laden waggons were attached, swelling the weight, with the engine, to upwards of 40 tons. Once more the engine was started, and without the least apparent difficulty, it dragged its load over every variety of ground, and through the streets, arriving at the factory at about five o'clock, after an absence of upwards of three hours. The engine experimented upon was one of nominally 10-horse power, and was the first traction engine which ever ascended a gradient of the steepness of that passed over on Saturday with such a heavy weight. It is the intention of the company to send out 20 similar engines to Australia for the purpose of transporting the copper from their mines to the port, a distance of 120 miles, over an unbeaten tract of land. The cost of the carriage is now £10 per ton, but by the use of these engines it will be reduced to £2. The trials on Saturday were considered very satisfactory by those present, several of the most eminent engineers pronouncing the new traction engine in every respect the best yet constructed.

ANOTHER MURDER.

Ranchos, August 8th, 1863.

A gallego, named Pedro Biscacha, has been murdered. A few days ago the poor fellow had his throat cut in two places, and two stabs. It appears that two men called at his house and asked him for a light. He went to bring one. In the meantime one of them got off his horse, and as he gave the fire to the other one, came and stabbed him. It was two days after the murder was committed before the authorities endeavoured to apprehend the murderers; as yet they have not been able to do so. What is the use of tenientes or alcaldes if a man can rob or kill with the certainty that no one will endeavour to take him prisoner till two or three days after he has committed the crime? I should be very much obliged if you would call attention to this gross neglect.

MARKET REPORT OF RIVER PLATE PRODUCE.

New York, June 19, 1863.

There has been more life in trade the past month, and Hides, Wool, &c., are beginning to sell more freely. Gold has fluctuated some, with a constant downward tendency, as the impression was quite general that our armies would be victorious, and hasten the bringing of the rebellion to a close. General Grant is besieging Vicksburg, and as the rebels are not likely to be reinforced the fall of the place is only a question of time. General Banks holds Port Hudson in the same position, and with the capture of these places the Government will again have the control of the Mississippi River, and trade can be resumed without interruption.

The rebel army of General Lee has moved from Fredericksburg, and are invading Maryland and Pennsylvania. General Hooker is following them up, and a battle must inevitably take place. We continue to learn of numerous depredations by the "pirates" on our commerce, and insurance against risk of capture has nearly doubled.

Government Securities 5-20, year Bonds continue to be subscribed for very liberally by the community.

Unwashed Mestiza wool.—But little has been added to our stock by the recent arrivals, and the bulk of the clip will soon be here. There has been a little more enquiry, and sales amounting to 400 bales on 'private terms,' supposed to be 28 to 30 cts. per lb. cash. An increased demand is looked for next month.

Unwashed common Entre Rios, Rosario, San Nicolas, and Buenos Ayres Wools.—A further addition has been made to our stock, but no sales reported. There is no particular enquiry for this description of wool, and the quantity on hand is not large, and can easily be placed when a demand comes.

Washed Cordoba, Santiago, San Luis and Mendoza Wools.—300 bales have been imported direct, and from England, all of which is still unsold. Sales from second hands about 200 bales at 40 to 42½ cts. per lb. nett cash. The market is very quiet,

TOBACCO REPORT.

London, July 9th, 1863.

American advices continue to represent the new Western Tobacco to be with little exception, of the most inferior quality for many seasons, almost devoid of rich heavy leaf, wanting in body, substance, ragged, some frosted, much with green and unripe leaves, and not so well handled as in former years; that in the state of Tennessee alone, 10,000 to 13,000 labourers had been taken from the cultivation of Tobacco, while much the same condition of affairs exists in Kentucky and Missouri, and that even with a favorable season the crop of the present year must fall short of last in weight and hogsheads.

There is some doing in Paraguay, the last of the season's growth having arrived at market; we have received samples of 700 bales of this growth, of the finest quality, color, and in the dryest condition.

COTTON SUPPLY ASSOCIATION

Offices, No. 1 Newall's Buildings,
Manchester, July 8, 1863.

Dear Sirs—Your two favours of the 27th April & 25th May have been duly received, and have had the best attention of our committee.

The 400lb of cotton mentioned in the first of the above letters has not yet arrived. The committee hope that this lot is the same as that mentioned in your last communication, as the price is so high that a considerable loss will be suffered upon it. Some discussion occurred at their meeting yesterday on the subject of your purchase of seed cotton, and some disapproval was expressed as to the recognition of such transactions, as our constitution prohibits them, the principal functions of this association being the dissemination of the best information the executive are able to collect for the instruction of intending cotton-growers, and to supply them with the best description of seed and cleaning machinery.

The association cannot on its own account enter into any trading operations, but should you or your friends be desirous of consigning any parcel of cotton, the committee will dispose of it in the best market, rendering any service they are able gratuitously.

The committee desire me to point out to you that the price you have paid for the seed cotton under notice (10d. per lb.) is, unless of a very superior description, doubtless much above its commercial value, as it will cost when cleaned nearly 3s. 6d. per lb, estimating 1lb of clean cotton out of 4lb seed cotton, being nearly double the price of American and Egyptian cottons. They fear that your having paid what appears to them to be an exorbitant price may actually do harm, by raising a false estimate of the probable value of future crops. They regret that so much cotton seed should be sent away from Buenos Ayres, especially at a time when the association is using its best efforts to furnish you with adequate supplies of the same article. Considering the value of good seed, its worth to your neighbours would have amply paid the expense of hand-picking it, if no gin could be made available.

The committee are sorry to hear that you have not been able to work the gin you have got. I enclose the maker's directions for fixing and adjusting the machines, and hope they will enable you to arrange its satisfactory action. Should you have no means of turning the machine by steam, water, or cattle-power, a large wheel (about 6 feet in diameter) may be used; and by means of a strap from that wheel to the pulley of the gin about 120 revolutions of the roller may be easily obtained, that number being considered requisite.

We have received a debit note amounting to £1 13s. 2d. from the shippers of the seed, per Magdalena, for which amount be good enough to give the association credit.

The committee were interested with your remarks on the supply of labour and the prospects of Buenos Ayres as a cotton producing country

I send you by this mail a parcel of our tracts in Spanish, and regret that our stock will not allow us to spare more at present.

I am, dear sirs,
Yours truly,
ISAAC WATTS, Secretary.
Messrs. M. G. and E. T. Mullhall,
Buenos Ayres.

PRICES OF PRODUCE.

Liverpool, July 7th, 1863.

Since the issue of our last, the arrivals from the River Plate have been the Amerigo, Tre Sorelli, Witch of the Wave, Envoy, and John Ritson, from Buenos Ayres: the Regatta, Florie, Orkney Lass, Jane, Western Star, Zelia, Lady Douglas, and Blackburn, from Monte Video: the Tutto per il Meglio, Rowena, and Jolly, from Fray Bentos; the Mosquito, from Concepcion: and the Teresa and Onward, from the Uruguay, bringing 105,475 salted ox and cow, and 4259 salted horse hides. From Rio Grande the arrivals have been the Files, La Meuse, Masonic, and Anthon Ostoff, bringing 19,806 salted ox and cow, and 4,894 salted horse hides. The Constantia and Seringapatam, from Buenos Ayres: the Indiferente, Orlebar, Victor Emanuele, and Haabet, from Monte Video: and the Jane Campbell and Vesta, from Rio Grande, have likewise been reported with cargoes of wool, tallow, calcined bones, &c. From other quarters the principal imports of hides include 5344 dry West Coast, 11,346 dry salted Brazil, 8105 salted North American, and 13,5[illegible]0 East India kips and buffalo hides

Though the sales during the past month of salted River Plate and Rio Grande hides show, in the aggregate, a fair amount of business, the market has continued heavy and unsettled and prices are again lower, and, with large arrivals and an increasing stock, the trade have purchased with evident reluctance. By the concession of 1[illegible] per lb on heavy, and 1[illegible] per lb on light ox, several parcels of Uruguays and Montevideos were placed in June, but for the last few days there has seemed no disposition to operate further at the same prices. Buenos Ayres have met with little inquiry. The sales of Rio Grande include the cargo, per La Meuse, sold previous to arrival.

The present stock consists of 115,692 hides

Bones and bone ash—Import, 900 tons bones and 698 tons bone ash and calcined bones. Bones have continued in good demand, and considering the season of the year, have realised very fair prices. Bone ash, on the spot, is dull and heavy of sale. There are inquiries for floating cargoes for outports, and the present quotations may be considered as 5l 2s 6d to 5l 5s for Rio Grande and 4l 17s 6d to 5l for River Plate, on a basis of 70 per cent of phosphates. Sales, 800 tons bones. River Plate—shanks, 6l 2s 6d to 6l 10s: cut, 6l 10s: legs, 5l 10s to 6l; common, 5l 7s 6d to 5l 12s 6d: piths, 4l 10s to 4l 17s 6d: hoofs, 6l 10s per ton. West Coast—Common mixed, at 5l 12s 6d per ton. 300 tons River Plate bone ash, ex ship, at 4l 10s per ton on 70 per cent phosphates

South American tallow—Import, equal to 43[illegible]0 pipes. A fair amount of business has been concluded on the spot, chiefly ex ship, at a decline of about 6d to 9d per cwt. Sales are estimated at about [illegible] pipes, a considerable portion of which was sold previous to arrival. Fair to good Saladero, 41s 6d to 41s 3d: yellow and inferior, at 40s 6d to 41s 6d per cwt. About 50 pipes mare's grease has been realised at 35s 6d to 36s 9d per cwt Stock, 6100 pipes.

THE "NACIONAL" AND DR GIBBINGS.

To the Editor of the Standard.

Estancia de los Ombues R[illegible]
August 10th, 1863.

"Parturiunt montes, nascitur ridiculus mus."—HOR.

Dear Sir—Your statement of the case alluded to in the Nacional of the 1st inst is verbatim as I related it to you. Although I have not the honor of Dr. Keen's personal acquaintance I trust that I enjoy the friendship of some members of his family. The article in question I translated literally. I admitted no Homeric license, and as a British subject and a foreigner I felt agrieved. Feeling as I do respect and esteem for every member of a family who have been such benefactors to Buenos Ayres as Dr. Keen's, I was pleased to hear from a mutual friend Dr. Keen's vexation at being considered the author of the said article, and I considered it justice that you should make some amend, as far as he was concerned, for the very appropriate response which appeared in the Standard, to the remarks of the Nacional, so ungenerous to foreigners of all denominations. Perhaps on my part it was incautious, but as in Sterne's Tristram,

the end desired cancifies the doe Should Doctor Keen desire it, I shall have the satisfaction, in confidence, knowing our mutual friend's name, and any other satisfaction he may require that one gentleman can give to another I will only allude to one passage in the paragraph of the 'Nacional' of the 5th inst, when he asks if I remember our loved country, and I tell him that my sons have learned from our immortal bard to feel as I do

"Ireland as she ought to be, great glorious and free,
First flower of the earth and first gem of the sea."

Faithfully yours,
RICHARD GIBBINGS.

ON 'CHANGE,

August 14.

Ounces opened at 11¼ at 429; they ran down to 427 1|2 immediately, and about 1700 sold at that rate. They became a little firmer towards two o'clock, and closed firm at 428. Cash sales, 14,440.

Saturday being a holiday, to-day was pay day on the Bolsa. The sales for cash were enormous, and on time very heavy. Ounces were very weak to-day, and showed as great a tendency to decline still further as a few weeks past they did to go up. It is said that very little speculation is going on in gold, but we cannot reconcile this statement with the figures on the black board. Speculation, and a very heavy speculation must be going on, to necessitate the purchase of 14,000 ounces in the middle of the month. On 'Change to day, it was stated that by a decree of the Government, to be signed this day, foreign coin would be made a legal tender, and that the Government had set the good example themselves, by receiving sovereigns in the Custom House.

Money seemed rather abundant this evening, and collections about town were not bad.

It is said that 50,000 sovereigns is coming by the packet to order. We have seen nothing to justify the report on the manifest, unless they remained in Montevideo.

We understand, that besides the parties already named, there are several others who have come forward to guarantee the interest on the £25,000 to the Government in the Great Southern R R contract. Mr Martin Alzaga and others have already signed the document. We are pleased to see this. Every property holder in the south should do the same.

PRODUCE SALES.

5500 quintals jerked beef	15 1|2
80 dry hides	105
50 do	95
150 doz sheepskins epidemia	110
85 do mixed	80
80 bales Cordova wool	35
1000 lb feathers, B.O.	10 rls

Produce sales were very limited to-day, and salted hides are very weak, owing to the news from Europe. Wool is firm, but the stock on hand is so scanty that except as regards the coming clip the advices have slight interest.

We regret to notice the sudden demise of our colleague "El Commercio" We are pleased to say that this has been caused less by the want of support than the impossibility of the talented editor to attend to it, owing to his multifarious occupations.

RIVER PLATE MAIL.

Public sales of River Plate wool were held here on the 27th inst, consisting of 2067 bales, viz.

2405 Bales Entre Rios, B. Ayres, and Banda Oriental, of which 1251 bales were sold, 84 per cent being washed wool, and all of fine qualities including some celebrated marks of clean Entre Rios wool, viz, J J, D C, J P, J S, J T, &c. The prices were as follows—

Fine wool from the Buenos Ayres district, having a good deal of burr, could only be disposed of at lower rates, and very few were offered. Some parcels have been sold since the sales at similar prices to those by auction; and also a parcel of fine greasy Entre Rios, in good condition, at 9 1|2d run, for all qualities except the refuse.

The clean washed and Entre Rios third and fourth qualities realized better than expected, the demand being mostly for low class clothing wools, and the average price was thereby somewhat improved.

SAUNDERS & KEYSER,

ENGINEERS, MILLWRIGHTS, SMITHS, &c.

117—PASEO DE JULIO—117.

BUENOS AYRES.

JAMES SAUNDERS begs to announce to the public that he entered into Partnership with ALBERT KEYSER, in the above business, at the premises formerly occupied by Mr Thomas Moore, and lately in possession of J. Saunders.

Wool presses, cranes, and destroying machine wire stretchers or screws, of a superior quality for erecting wire fences; wire ratcas, &c., 1 horse power chain pumps of camp and chacra purposes, simple and complete; steam engines, Ship-smith work in general and all kinds of machinery, repaired at the shortest notice and on the most reasonable terms

The great share of patronage which he has enjoyed since commencing business is the best assurance he can give his friends of promptness and fidelity in the execution of all orders entrusted to him; and with this view he has taken as partner an active and experienced man of business who will assist him [illegible]

COLEGIO ANGLO-PORTENO

205—CALLE MAYPU—205

This school has been established for several years, and is wellknown in this city.

No pains are spared to make the place of instruction attractive to the pupils, and the instruction itself profitable.

Patrons are respectfully invited to visit the school, and to note carefully the monthly reports of progress and deportment.

The English, Spanish, and French languages are carefully taught by skilful instructors, and every branch of useful or ornamental education may be prosecuted in either of these languages.

French and drawing are taught after school hours. Also an afternoon class for fancy work four times a week.

Day pupils can be received at any time, and a few could be accommodated as boarders or half-boarders.

Sept. 20th.

Anne S. Smith, 205 Maypu,
